Independent Auditor's Report

To: The Supreme Council
Da Afghanistan Bank

We have audited the accompanying financial statements of Da Afghanistan Bank ("the Bank"), which comprise the statement of financial position as at 30 Hoot 1389 (20 March 2011), and the income statement, statements of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards (IFRSs) and Da Afghanistan Bank Law of 2003 and for such internal controls as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

- a) As per Article 31 of Da Afghanistan Bank Law ("DAB law") the Bank is required to maintain authorized capital at 5 percent (5%) of total liabilities as defined in Article 29 of the said law. In the absence of clarity about whether reserves form part of authorised capital for purposes of Article 31, as mentioned above, losses have been adjusted against capital. Excluding reserves capital of the Bank as at 30 Hoot 1389 (20 March 2011) is short by Afs 44,688,008 thousand.

Further, as explained in notes 8 and 39 to the financial statements, the Bank on 31 Hamal 1390 (20 April 2011) paid a further amount of Afs 19,500,500 thousand (equivalent to USD 425,000 thousand) to the Kabul Bank ("KB") under Article 86 of the DAB law. This is in addition to Afs 18,108,250 thousand paid during the year under the said Article, which has been fully provided for. Due to disapproval by the Parliament of repayment of Lender of Last Resort costs to KB as included in the 'Promissory Note and Agreement' signed between the Bank and Ministry of Finance on 10 April 2011 and in the absence of any alternative arrangements the further amount also appear doubtful of recovery. By including impairment effect of the further advance, capital of the Bank may be impaired notwithstanding inclusion of reserves as part of capital.

- b) The Bank is not in compliance with Article 74 of DAB law which requires the Bank to limit its foreign currency liabilities up to 50% of its unimpaired capital and reserves, which works out to Afs 6,890,979 thousand as at 30 Hoot 1389 (20 March 2011). Foreign currency liabilities of the Bank as at the said date stand at Afs 9,738,638 thousand, excluding liabilities towards Government of Afghanistan amounting to Afs 46,500,183 thousand.

Qualified Opinion

In our opinion, except for effects of matters described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the financial position of the Bank as of 30 Hoot 1389 (20 March 2011), and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the DAB Law.

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

1. Status and nature of operations

The Da Afghanistan Bank ("the Bank") was originally established in 1939 in accordance with Article 12 of the 1932 Constitution of Afghanistan. The Bank was operating under the supervision of the Ministry of Finance (MoF), Government of Afghanistan. Subsequently, during the transitional Government, the Da Afghanistan Bank Law ("the DAB Law") of the Islamic Republic of Afghanistan was enacted on 18 September 2003, and the Bank was re-established as an independent legal entity. This law and the change in the Bank's status were ratified by an amendment to the Article 12 of the Constitution of the Islamic Republic of Afghanistan in January 2004.

Da Afghanistan Bank is the Central Bank of Afghanistan. As per the DAB Law, the Bank's main objective is to achieve and maintain domestic price stability with other objectives to foster the liquidity, solvency and proper functioning of a stable market based financial system. The Bank also conducts monetary policy on the monetary base and through reserves management, and act as a bank, financial consultant, and agent of the Government of Islamic Republic of Afghanistan and other state governed bodies.

Registered office (Head Office) of the Bank is situated in Kabul. As at 20 March 2011 the Bank operated 44 branches.

2. Basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with the requirements of the International Financial Reporting Standards (IFRSs) and the DAB law. Wherever the DAB Law differs with the requirements of the IFRSs, the requirements of the DAB Law take precedence.

These financial statements were approved by the Supreme Council in their meeting held on _____.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for the following:

- Gold reserves are measured at fair value
- Available for sale financial assets are measured at fair value
- Investment property is measured at fair value
- Land and buildings are carried at revalued amounts
- Liability for defined benefit obligations is recognised as the present value of the defined benefit obligation add/less past service costs and actuarial losses

(c) Functional and presentation currency

These financial statements are presented in Afghani ("Afs"), which is the Bank's functional currency. All financial information presented in Afs has been rounded to the nearest thousands of Afghani.

iepm

Da Afghanistan Bank
Notes to the financial statements
For the year ended 30 Hoot 1389 (20 March 2011)

(d) Use of estimates and judgments

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

- | | |
|---|------------|
| • gold reserve | Note 3 (b) |
| • useful lives and valuation of property and equipment; | Note 3 (d) |
| • fair value measurement of investment properties; | Note 3 (e) |
| • useful life of intangible asset | Note 3 (f) |
| • Provision for impairment | Note 3 (h) |
| • Retirement benefits to employees; | Note 3 (j) |

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currency transactions

Transactions in foreign currencies are translated in to the functional currency of the Bank at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated in to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated in to the functional currency at the exchange rate at the date that the fair value is determined.

For the purpose of retranslation as at 20 March 2011, the Afghani exchange rates used for the major currencies were:

	1389	1388
United States Dollar	45.374	48.482
Euro	64.095	65.570
Sterling Pounds	73.300	72.765
Pakistan Rupee	00.532	00.575

Foreign currency differences arising on retranslation and dealings in foreign currencies are recognised in the income statement.

16/11/11

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

(b) Gold

Gold held as reserve

Refined gold held as foreign reserve are recorded at fair value at the statement of financial position date. Fair price is determined by reference to the London Bullion Market Association ("LBMA") PM fixings at a discount of USD 2 per troy ounces. Fair value changes in gold are taken to reserve account whereas foreign exchange changes are included in profit and loss account.

Gold at Bank vault

Non-refined gold and precious metals held at the Bank vault are stated at cost, and are included within other assets.

(c) Cash and cash equivalents

Cash and cash equivalents include foreign currency cash on hand, unrestricted balances held with other central banks and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Bank in the management of its short-term commitments.

(d) Property and equipment

Recognition and measurement

Items of property and equipment, other than free-hold land, which is stated at revalued amount, are measured at cost less accumulated depreciation and impairment losses, if any.

Cost includes expenditures that are directly attributable to the acquisition of the items of the asset.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Subsequent costs

The cost of replacing part of an item of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Bank and its cost can be measured reliably. The costs of day-to-day servicing of property and equipment are recognised in income statement as incurred.

Depreciation

Depreciation is recognised in income statement on a straight-line basis over the estimated useful lives of each part of an item of property and equipment.

The estimated useful lives for the current and comparative periods are as follows:

18/04

Da Afghanistan Bank
Notes to the financial statements
For the year ended 30 Hoot 1389 (20 March 2011)

	1389	1388
Buildings	40 years	40 years
Furniture and fixtures	5 years	5 years
Motor vehicles	5 years	5 years
IT and office equipment	5 years	5 years

Depreciation methods, useful lives and residual values are re-assessed at the reporting date.

Surplus arising from the revaluation is credited to the revaluation reserve included in equity section of the statement of financial position, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in the income statement, in which case the increase is recognised in income statement. A revaluation deficit is recognised in the income statement, except that a deficit directly offsetting a previous surplus on the same asset is directly offset against the surplus in the revaluation reserve. Upon disposal, any revaluation surplus relating to the particular asset being sold is transferred to equity. An item of property and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is de-recognised. The asset's residual values, useful lives and method are regularly reviewed and adjusted, if appropriate.

Reclassification to investment property

When a property is transferred from operating assets for the Bank's own use (owner-occupied) to investment property, it will be carried at fair value and is reclassified as investment property. Any gain arising on remeasurement at the time of transfer is recognised in equity and any loss is recognised immediately in income statement.

(e) Investment property

Investment property is property held to earn rental income and for capital appreciation. The Bank holds some investment properties as a consequence of its lease agreements. Investment properties are measured at fair value with any change therein recognised in income statement.

(f) Intangible asset

Software acquired by the Bank is stated at cost less accumulated amortisation and accumulated impairment losses.

Subsequent expenditure on intangible asset is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Amortisation is recognised in income statement on a straight-line basis over the estimated useful life of the software, from the date it is available for use.

copy

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

(g) Non-derivative financial instruments

Non-derivative financial instruments of the Bank comprise gold reserve, cash, advances and other receivables, due from banks and financial institutions, treasury bills, currency in circulation, due to banks and financial institutions, capital notes, due to customers, due to International Monetary Fund and other liabilities.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs, except as described below. Subsequent to initial recognition non-derivative financial instruments are measured as described below.

A financial instrument is recognised if the Bank becomes a party to the contractual provisions of the instrument. Financial assets are de-recognised if the Bank's contractual rights to the cash flows from the financial assets expire or if the Bank transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Regular way purchases and sales of financial assets are accounted for at trade date, i.e., the date that the Bank commits itself to purchase or sell the asset. Financial liabilities are de-recognised if the Bank's obligations specified in the contract expire or are discharged or cancelled.

Held-to-maturity investments

When the Bank has the positive intent and ability to hold debt securities to maturity, these investments are classified as held-to-maturity. Held-to-maturity investments are measured at amortised cost using the effective interest method, less any impairment losses.

Available-for-sale financial assets

Subsequent to initial recognition, the Bank's investments in securities classified as available-for-sale financial assets are measured at fair value and changes therein, other than impairment loss (see note 3(h)), and foreign exchange gains and loss on available-for-sale monetary items (see note 3(a)), are recognised other comprehensive income. When an investment is de-recognised, the cumulative gain or loss in equity is transferred to income statement.

Investment at fair value through profit or loss

An instrument is classified as at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Bank manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are charged in income statement when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognised in income statement.

Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest method, less any accumulated impairment losses.

6/11/11

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

(h) Impairment

Financial assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in income statement. Any cumulative loss in respect of an available-for-sale financial asset recognised previously in equity is transferred to income statement.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in income statement. For available-for-sale financial assets that are equity securities, the reversal is recognised directly in equity.

Non-financial assets

The carrying amounts of the Bank's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in income statement.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

(i) Currency in circulation

Bank notes and coins in circulation represent a demand liability of the Bank when issued from the vaults and are recorded in the statement of financial position at their denominated value.

WPM

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

Expenses on bank notes and coins in circulations include expenses on production, security, transportation, insurance and other expenses. Expenses on bank notes and coins in circulation are recognised as and when they are incurred. Any un-issued currency notes and coins lying with the Bank's vault are not reflected in these financial statements.

(j) Employee benefits

Defined benefit plans

The Bank operates an unfunded pension scheme for its permanent employees. Contributions to the scheme are made by employees and the Bank. Employees contribute 3% of net monthly salary and education allowance while the Bank contributes 5% of the budgeted salary on yearly basis. Pension is payable after the retirement on monthly basis in accordance with pension rules of the Bank depending upon completed years of service.

The Bank's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefits that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and any unrecognised past service costs and the fair value of any plan assets are deducted. The discount rate is the yield at the reporting date on government securities that have maturity dates approximating to the terms of the Bank's obligations. The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Bank, the recognised asset is limited to the net total of any unrecognised past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

When the benefits of a plan are improved, the portion of the increased benefits relating to past service by employees is recognised in income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in income statement.

The latest actuarial valuation was carried out on 30 Hoot 1389 (20 March 2011).

Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Termination benefits

Termination benefits are recognised as a liability and an expense when, and only when, the bank is demonstrably committed to either terminate the employment of an employee or group of employees before the normal retirement date or termination benefits as a result of an offer made in order to encourage voluntary redundancy, opted by the employees.

(k) Provisions

A provision is recognised if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by

WAK

Da Afghanistan Bank**Notes to the financial statements**

For the year ended 30 Hoot 1389 (20 March 2011)

discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(l) Interest

Interest income and expense are recognised in the income statement using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability. The effective interest rate is established on initial recognition of the financial asset or liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees, transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Interest income and expense presented in the income statement include:

- Interest on financial assets and liabilities at amortised cost on an effective interest rate basis.
- Interest on available-for-sale investment securities on an effective interest basis.

(m) Fee and commission

Fee and commission income and expenses that are integral to the financial asset or liability are included in the measurement of the effective interest rate.

Other fee and commission income, including account servicing fee, transfer commission, branch coordination commission are recognised as the related services are performed. When a loan commitment is not expected to result in draw-down of a loan, loan commitment fee are recognised on straight-line basis over the commitment period.

Other fee and commission expense relates mainly to transaction service fee and asset management services, which are expensed as the services are received.

(n) Rental income

Rental income from investment properties is recognised in income statement on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

(o) Grant

Grant is recognised in the income statement over the periods necessary to match them with the related asset when they are intended to compensate on a systematic basis. Grant relating to asset including non-monetary grant at fair value is credited to a deferred grant account and is released to the income statement over the expected useful life of the relevant asset.

WM4

Da Afghanistan Bank

Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

(p) Taxation

Under Article 124 of the DAB Law, the Bank is exempt from taxes on income or profits; personal property taxes on assets; taxes on transfer of funds and other financial transactions; stamp duties on issuance of securities and bank notes; customs duties, import duties, sales tax, value added taxes on imports of gold, bank notes and coins; sales tax on domestic supply of gold, bank notes, and coins etc.

Accordingly, no provision for income tax has been made in these financial statements.

(q) Offsetting

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position when the Bank has a legally enforceable right to set-off the recognised amounts and it intends either to settle on a net basis or to realized the asset and settle the liability simultaneously.

(r) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended 30 Hoot 1389, and have not been applied in preparing these financial statements. None of these will have an effect on the financial statements of the Bank, with the exception of:

IFRS 9 "*Financial Instruments*", published on 12 November 2009 as part of phase 1 of the IASB's comprehensive project to replace IAS 39, deals with classification and measurement of financial assets. The requirements of this standard represent a significant change from the existing requirements in IAS 39 in respect of financial assets: amortized cost and fair value.

The standard is effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted. The Bank is currently in the process of evaluating the potential effects of this standard.

4. Gold reserve			
Balance at beginning of the year	4.1	37,611,073	34,640,934
Gain on revaluation		10,719,241	5,168,249
Exchange loss		(3,098,742)	(2,198,110)
Balance at end of the year		<u>45,231,572</u>	<u>37,611,073</u>

4.1 This represents 703,004.944 fine troy ounces (1388: 703,004.944 fine troy ounces) of gold in bar form held at Federal Reserve Bank of New York as the Bank's international reserve.

4.2 As per Federal Reserve Bank, New York (FRB NY), these gold reserves do not meet the standards for valuation set by the London Bullion Market Association ("LBMA"). The Bank has obtained an advice for the estimate of discount to the LBMA rate of USD 1,420 per troy ounce (1388: USD 1,105.50 per troy ounce) from Bank for International Settlement (BIS), Switzerland, which suggested discount from USD 1 to 2 per troy ounce to the LBMA rate. Accordingly, the Bank has valued the gold reserves at USD 1,418 per troy ounce (1388: USD 1,103.50 per troy ounce) using discount of USD 2 per troy ounce to the LBMA rate as at the date of statement of financial position.

Other fixed income securities	9,527,687	9,847,174
	<u>46,732,618</u>	<u>48,890,937</u>

7.1.1 The Bank has entered into an investment management and consultation agreement with the International Bank for Reconstruction and Development ("IBRD") for Reserves Advisory Management Program (RAMP). The IBRD has placed the funds in US treasury bills, federal agency securities and deposit accounts maintained with the Federal Reserve Bank New York. These portfolio investments carry interest rates ranging from 0.38% to 2.75% per annum (1388: 0.21% to 0.72% per annum). The carrying value of these investments as at the year end amounts to USD 1,029,943 thousand (1388: 1,008,424 thousand).

7.2 Treasury bills

Da Afghanistan Bank**Notes to the financial statements***For the year ended 30 Hoot 1389 (20 March 2011)*

- 8.1** This represents the amount paid to Kabul Bank ("KB") as a lender of last resort ("LoLR") under Article 86 of the DAB law.

Subsequent to the year end and signing of Promissory Note and Agreement as mentioned in the following paragraph, on 29 Hamal 1390 (18 April 2011), the Bank paid a further amount of Afs 19,500,500 thousands (equivalent USD 425,000 thousands) to Kabul Bank under the above mentioned Article."

On 21 Hamal 1390 (10 April 2011) the Bank signed a Promissory Note and Agreement ("PNA") with the Ministry of Finance ("MoF"), whereunder MoF agreed to underwrite cost of LoLR facilities to Kabul Bank amounting to Afs 37,620,000 thousand. The PNA included procedures for payment for guarantee of deposits of Kabul Bank. The repayment was subject to approval by the Parliament and other conditions, as contained in the PNA including assignment of claims of the Bank against KB to the MoF. Per terms of repayment the entire amount was to be paid to the Bank over 8 years in 32 quarterly increasing installments beginning from the end of first quarter of 1390 and carrying interest rates charged on daily basis applicable to overnight deposits of the Bank as disclosed in note 16.3.

On 31 Hamal 1390 (20 April 2011) KB was placed under receivership; whereafter operations of KB are to be continued by New Kabul Bank ("NKB") and the receivers shall recover assets of KB.

The Parliament did not approve the budget of MoF in respect of payments to the Bank under the PNA and in the absence of an alternative arrangement the amount is doubtful of recovery. Accordingly, management has made full provision against the amount receivable at the reporting date.

- 9.2 This represents the share of contribution of the Bank for establishment of Afghanistan Deposit Insurance Corporation (ADIC). As per Article 7 of the draft ADIC Law, the initial capital of ADIC of Afs 1,050,000 thousand shall be contributed by the Bank, MoF and commercial banks in proportion to Afs 500,000 thousand, Afs 500,000 thousand and Afs 50,000 thousand respectively. The contribution by the Bank has been treated as advance and will be recognised as investment in ADIC upon approval of ADIC Law by the Parliament of Islamic Republic of Afghanistan.
- 9.3 These represent advances to past regimes and receivables on account of misappropriation of the cash in hand by the Bank's staff in prior years. The Bank has recognised full impairment provision against the previous years' advances as the chances of the recovery of the same are remote. The movement in gross amount is on account of revaluation of foreign advances at closing rates.

10. Investment property	Note	1389	1388
		(Afs '000')	(Afs '000')
Balance as at beginning of the year	10.1	4,800	4,800
Gain on revaluation during the year		4,200	-
Balance as at end of the year		9,000	4,800

- 10.1 Investment property comprises an agricultural land situated near Kabul which is leased out to a farmer. The lease contract is for a period of 3 years, upon completion of 3 year subsequent renewal is subject to negotiation with the lessee. Property interests held under operating leases are classified as investment properties. No contingent rents are recognised. The Bank has given certain shops attached with the premises of the branches, however, the portion given on leases is not significant and hence are not classified as investment properties.

The recent valuation was carried out during year 1389 by M/S Pamir Property Dealer Kabul, a reputed property dealer having professional competency and experience in the location and category of the property being valued. Fair value was determined with regard to recent market transactions for similar properties in the same location as the Bank's investment property. The gains on the re-measurement of fair value of investment property amounting to Afs 4,200 thousand was recognised in the other operating income in the income statement.

Rental income earned from investment property is disclosed under Note 25.

13.1 This represents the gold bullion and bars and gold and silver coins held in the Bank's vault. Under a Memorandum of Understanding ("MoU") agreed between the Bank and the Ministry of Finance (MoF) in the year 1383, the Bank has been granted clear title to all the gold bullion and bars, as well as certain gold and silver coins, asserted to be owned by the Bank and physically located in the Presidential Palace vault. A count of these gold bullion, bars and coins was conducted in the year 1384 for the purpose of MoU and the value of these were estimated to Afs 8,061,400 thousands as determined by local expert. In 1386, the Bank conducted a reconciliation process of gold bars and coins and decided to write down the value of these minerals by Afs 2,199,672 thousands that represented a shortfall of gold bars and coins handed over to the Bank by the Ministry of Finance under MoU. Subsequently, in the year 1387, the Bank completed the physical recounting, re-weighing and reconciliation process of silver coins and included in the books of accounts the Afs 6,711,255 thousand, being the value previously unaccounted for.

13.2 During previous years, this represented USD 9,010,807 receivable from different project accounts against which the Bank had made payments to relevant ministries and government institutions during previous years. The amount has been received during the year.

18.1 The Islamic Republic of Afghanistan is a member of International Monetary Fund (IMF) since 1955. The member country can designate Ministry of Finance (MoF), central bank or any other agency as their Fiscal Agent. In addition, each member is statutorily required to designate its central bank as Depository. The Government of Afghanistan has nominated MoF as their Fiscal Agent and the Bank as the Depository.

As the Depository for the Islamic Republic of Afghanistan, the Bank is required to maintain, in additions to other accounts, the following accounts:

Account 1 (Afghani)
Account 2 (Afghani)

IMF's holding of the member's currency are placed in IMF Accounts No 1 and No 2 in the central bank. The central bank is required to record balances in the IMF No.1 and No. 2 accounts as its liabilities. These balances, although maintained within the central bank, are owned by the IMF. The IMF Account No. 1 is used for the IMF's operational transactions whereas the IMF Account No. 2 is used for operational expenses incurred by the IMF in the member's currency.

IMF

Da Afghanistan Bank**Notes to the financial statements***For the year ended 30 Hoot 1389 (20 March 2011)***19. Defined benefit plan**

The Bank operates an unfunded defined pension scheme which covers all eligible employees as per the policy of the Bank specified under note 3(j). The Bank obtained services of an independent actuary situated in Karachi - Pakistan, to carry out the actuarial valuation of defined benefit obligations. The following data is based on the valuation carried out at 30 Hoot 1389 (20 March 2011).

The liability recognised in the statement of financial position in respect of defined pension scheme is the present value of the defined benefit obligation at the 30 Hoot 1389.

<i>Note</i>	1389 (Afs '000')	1388 (Afs '000')
Balance at beginning of the year	1,223,107	333,368
Charge for the year	194,691	915,105
Benefits paid during the year	(26,389)	(25,366)
Balance at end of the year	<u>1,391,409</u>	<u>1,223,107</u>

The amounts recognised in the statement of financial position are as follows:

Present value of defined benefit obligation	2,097,702	1,983,728
Non-vested past service cost to be recognised in future years	(706,293)	(760,621)
	<u>1,391,409</u>	<u>1,223,107</u>

Movement in present value of defined obligations

Present value of defined obligations at beginning of the year	1,983,729	333,368
Current service cost	135,851	128,161
Interest cost	119,024	26,669
Vested past service cost due to changes in compensation structure	-	694,476
Non-vested past service cost due to changes in compensation structure	-	814,953
Actuarial (gain)/loss	(114,513)	11,468
Benefits paid during the year	(26,389)	(25,366)
	<u>2,097,702</u>	<u>1,983,729</u>

Expense recognised in the statement of comprehensive income is as follows:

Current service cost	135,851	128,161
Interest cost	119,024	26,669
Vested past service cost due to changes in compensation structure	-	694,476
Amortisation of non-vested past service cost	54,329	54,331
Actuarial (gain)/loss	(114,513)	11,468
	<u>194,691</u>	<u>915,105</u>

Actuarial assumptions

Principle actuarial assumptions at the reporting date, expressed as weighted averages, were:

	1389	1388
	<i>(per annum)</i>	
Discount rate	6%	6%
Annual increase in salary	6%	6%
Average life expectancy of an individual retiring at age of 65	15 Years	15 Years

Da Afghanistan Bank**Notes to the financial statements***For the year ended 30 Hoot 1389 (20 March 2011)***20. Deferred grant**

This represents the amount received from United States Agency for International Development (USAID) through Bearing Point (Consultants) in kind during years 1384 to 1386, mainly motor vehicles, IT and power equipment and accounting software. The Bank recognised the fair value of the granted assets at the time of receipt (excluding fair value of professional assistance provided by USAID through Bearing Point, retrospectively by re-stating previous years financial statements as of 1384 by Afs 25,624 thousand, 1385: Afs 153,247 thousand and in 1386: Afs 30,349 thousand respectively aggregating to Afs 209,220 thousand.

The recognition of deferred grant and grant income in accordance with the policy of the Bank as mentioned in note 3(o) is summarised below:

	1389 (Afs '000')	1388 (Afs '000')
Balance at beginning of the year	282,670	282,670
Additions during the year	-	-
	282,670	282,670
Accumulated transferred to income	(229,901)	(170,398)
Balance at end of the year	52,769	112,272
Accumulated transferred to income		
Balance at beginning of the year	170,398	90,549
Transfer to income during the year	59,503	79,849
Balance at end of the year	229,901	170,398

21. Provisions and other liabilities

Deposit against letters of credit -net	21.2	5,839,725	4,127,523
MOU adjustments	29	75,896	49,550
Sundry payables	21.3	497,791	970,723
Withholding taxes payable		441	49,683
Suspense accounts	21.4	1,084	506
Inter-branch accounts	21.5	1,677,309	-
RAMP management fee payable		9,521	8,316
		8,101,767	5,206,301

21.1 Currency profile of provisions and other liabilities is as follows:

Local currency	2,262,042	1,078,778
Foreign currency	5,839,725	4,127,523
	8,101,767	5,206,301

21.2 These represents the deposits received by the Bank against issuance of letters of credit amounting to Afs 5,925,054 thousand (1388: Afs 5,484,769 thousand) and disbursements there against, amounting to Afs 355,231 thousand (1388: Afs 1,357,246 thousand). The Bank issues letters of credit only to the government and governmental organisations against receipt of 100% deposit.

21.3 These include sundry payables amounting to Afs 413,391 thousand (1388: Afs 523,560 thousand) representing the payables relating to the previous regimes in respect of which the details of the payees are yet to be established by the Bank.

21.4 The Bank is in the process of reconciling these balances and would eventually be transferred to either appropriate account head or to the retained earnings in future. Impact of these balances on the over all financial statements can not be determined as at the date of statement of financial position.

21.5 It represents the net credit balance of un-reconciled differences in inter-branch accounts. Management is in process of reconciling these balances and the impact of these differences on the financial statements can not be determined at this time.

Da Afghanistan Bank
Notes to the financial statements

For the year ended 30 Hoot 1389 (20 March 2011)

22. Capital and reserves

22.1 Capital and capital management

According to Article 27 of the DAB Law, the authorized capital of the Bank is Afs 8,000,000 thousand or such higher amount as shall result from allocations from net profit pursuant to Article 29 of the DAB Law. The capital of the Bank is solely held by the Government of Islamic Republic of Afghanistan, and shall not be transferable or subject to encumbrances. Under the Memorandum of Understanding (MoU) entered with the Ministry of Finance (MoF), the paid up capital of the Bank has been reduced to below Afs 8,000,000 thousand (Afghanis eight billion) as a consequence of the transfer of assets and liabilities to the MoF.

According to Article 29 of the DAB Law, if the Bank has a net profit for any financial year, it shall be allocated to the capital account to increase the capital of the Bank to a level equivalent to five percent (5%) of the aggregate amount of monetary liabilities, as defined in Article 29. Any residual profits, if any, are required to be dealt with as prescribed in the above mentioned Article. The Bank is required to maintain its capital at this level.

After the allocation of accumulated (losses) / profit to the capital account, the capital of the Bank falls below five percent (5%) of the total amount of liabilities as defined in Article 29 of DAB Law. The Bank is considering recapitalisation of short fall in capital from the Government as required by the Article 31 of the DAB Law as well as amendment in DAB Law regarding fixation of minimum amount of capital and transfer of revaluation reserves to capital.

22.2 Revaluation reserve

According to Article 29 of the DAB Law, the Bank shall hold a general reserve and a revaluation reserve. The Bank may, if required, create a special reserve with the approval of MoF.

The Bank's revaluation reserve represents the cumulative unrealised gains on the revaluation of gold reserves at market prices, freehold land and building at fair values and un-realised valuation gains from available for sale financial assets at each statement of financial position date.

The carrying amounts of assets and liabilities approximate fair values except fair value of treasury bills (note 7.2.1) mentioned above under investments, as mostly they have short maturities and are expected to be recovered/settled at their carrying amounts.

69m3

32. Risk management policies

The Supreme Council of the Bank, chaired by the Governor, has the overall responsibility and oversight of the Bank's risk management framework. The Bank is primarily subject to credit, liquidity, market (interest and currency) risks and operational risk. The policies and procedures for managing these risks are outlined in notes 32.1 to 32.6. The Bank has designed and implemented a framework of controls to identify, monitor and manage these risks. The senior management is responsible for advising the Governor on the monitoring and managing of these risks. In addition International Monetary Fund (IMF) representatives visit the Bank quarterly to advise senior management and Governor on the management of these risks.

The Market Operations Department within the Bank is responsible for monitoring the Foreign Currencies Reserves as per the Bank's Reserves Management Policy and Guidelines.

32.1 Credit risk

Credit risk which is the risk that a counter party will be unable to pay the amounts in full when due. The Bank's primary exposure to credit risk arises through investment in treasury bills, deposits with banks and financial institutions and investments in available for sale financial assets. Treasury bills have insignificant credit risk as these bills are "guaranteed" by the issuing governments. Credit risk arising from deposit with banks and financial institutions is managed by monitoring, reviewing and analyzing these deposits frequently. Investments in available for sale financial assets are made in securities of central banks, government entities and other highly reputable organizations; periodic monitoring and review, and the portfolio is managed through the World Bank. The Bank manages credit risk arising from issuance of letters of credit by obtaining 100% margin against letters of credit.

The Bank's concentration of credit risk exposure is as follows:

	Note	1389 (Afs '000')	1388 (Afs '000')
Due from banks and financial institutions	6	131,732,037	92,073,987
Investments	7	56,838,209	58,991,959
		<u>188,570,246</u>	<u>151,065,946</u>

Financial instruments with off-balance sheet risk

The Bank neither enter into nor is a party to financial instruments and contractual obligations that, under certain conditions, could give rise to or involve elements of, market or credit risk in excess of that shown in the statement of financial position such as interest rate swaps, forward foreign exchange contracts, financial guarantees, and commitments to extend credit.

32.2 Liquidity risk

Liquidity risk reflects the Bank's inability in raising funds to meet commitments associated with the financial instruments. For liquidity risk arising from local currency activities, the Bank manages the daily liquidity position of the local banking system by monitoring daily inter-bank clearing system operating under the Bank. The risk arising out of the Bank's obligations for foreign currencies balances or deposits is managed through available reserves, open market operations and issue of capital notes.

The table below shows the Banks' assets and liabilities at the statement of financial position date in relevant maturity grouping based on the remaining period to the contractual maturity date.

32.3 Market risk

Market risk is defined as the risk of loss as a result of changes in market risk factors, these include prices, interest rates, foreign exchange rates, commodity prices and credit spreads. The Bank is exposed to market risk, as a consequence of its operations to deliver its policy objectives as well as in the course of managing the Bank's statement of financial position, principally through changes in the relative interest rates received on its assets and paid on its liabilities. Exposure may also be incurred to changes in exchange rates and to shifts in general market conditions, such as the liquidity of asset markets.

All market risk is managed within the Bank's Market Operations Department through Reserves Management Policy and Guidelines. The Bank is exposed to interest rate risk principally via its investments in treasury bills, available for sale financial assets and short term deposits with other banks and financial institutions bought and held to maturity in normal circumstances with the intention of maintaining the value of the Bank's capital and generating income to pay for the Bank's policy functions.

32.4 Interest rate risk exposure

Interest rate risk is the exposure of the Bank to the effects of the fluctuation in the prevailing levels of market interest rates on its financial position and cash flows. The Bank's investments in treasury bills, available for sale financial assets and short term deposits with other banks and financial institutions are primarily linked to prevailing market conditions. All other liabilities of the Bank are non interest bearing except the capital notes and minimum cash reserve accounts of local commercial banks included in due to other banks and financial institutions. The table below summarizes the Bank's exposure to interest rate risks. Included in the table are the Bank's financial assets and liabilities at carrying or revalued amounts, categorized by earlier of contractual reprising of maturity dates. Non interest bearing financial instruments are shown for reconciliation purposes.

The Bank does not have any material positions in off-balance-sheet instruments whose value can be affected by interest rate contracts, such as swaps, futures, and forwards; option contracts, such as caps, floors, and options on futures; and firm forward commitments to buy or sell loans, securities, or other financial instruments.

32.5 Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency activities result mainly from the Bank's holding of foreign currency assets under its foreign reserve management function. The overall level of these assets is determined based on the prevailing extent of credit and liquidity risks. In order to avoid losses arising from adverse changes in the rates of exchange, the Bank's compliance with the limits established for foreign currency positions is being regularly monitored by the management.

As of to date the Bank has not entered in to any foreign currency hedging transaction.

10/11/11

Sensitivity analysis on foreign currency financial assets and liabilities

A 1% strengthening of the Afghani, as indicated below, against the USD, GBP, PKR, Euro and Irani Toman at 20 March 2011 would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Bank considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant.

Provisions and other liabilities	44,107	5,605	10	0	4	-	49,725
Gains from financial liabilities	331,794	29,080	2,858	11	851	-	364,593
Net un-realised (losses)/gains on foreign currency	(639,051)	(320,816)	(310,528)	0	(373)	-	(1,270,768)

32.5.2 Effect of 1% decrease in exchange rates will have same effect on net unrealized gains/(losses) for both years but in opposite direction.

32.6 Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Bank's processes, personnel, technology and infrastructure, and from external factors other than credit, liquidity and market (interest and currency) risks such as those arising from legal and regulatory requirements and generally accepted corporate governance.

The Bank's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Bank's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each department of the Bank. This responsibility is supported by the development of overall Bank's policies for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions
- requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards

Compliance with the Bank's standards is supported by periodic reviews undertaken by Internal Auditor. The results of Internal Audit reviews are discussed with the management of the unit to which they relate, with summaries submitted to the Executive Board of the Bank.

LCM

Da Afghanistan Bank
Notes to the financial statements
For the year ended 30 Hoot 1389 (20 March 2011)

33. Fair values of financial assets and liabilities

The fair value of a financial instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arms length transaction.

The fair values of financial instruments reflected in the financial statements approximate to their carrying values except UK treasury bills as disclosed in note 7.2.1.

Refer note 9.1 for details of the Bank's payment to KB and signing of a Promisory Note and Agreement with the Ministry of Finance subsequent to the financial year.

Cymy

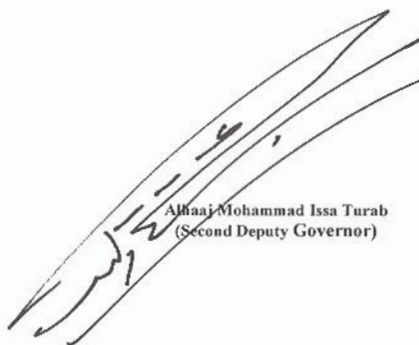

40. Correction of error

During last year, the Bank has omitted to recognise the interest income, realised gain/(loss) and unrealised gain/(loss) on available for sale financial assets for the last 20 days from 01 March 2010 to 20 March 2010 due to which the investment and related unrealised gain were overstated and interest income and gain on sale of asset were understated. During the year, the error was identified and corrected accordingly in accordance with International Accounting Standard (IAS) - 8 "Accounting Policies, Changes in Accounting Estimates and Errors" by restating the comparative amounts for the period presented in which the error occurred. The error did not occur before the earliest prior period presented, and accordingly the opening balances of assets, liabilities and equity for the earliest prior period presented are not restated. The effect of the restatement on financial statements is summarised below:

	Effect
	For the year ended 29 Hoot 1388
	Afs ('000')
Increase in interest income	36,452
Increase in realised gain on sale of asset	43,783
Decrease in unrealised gain on available for sale financial asset	(222,070)
	<u>(141,835)</u>
Decrease in investment in available for sale financial asset	<u>141,835</u>
Increase in capital	80,235
Decrease in revaluation reserves	(222,070)
Decrease in equity	<u>(141,835)</u>
